Tharunn D

Aspiring Data Engineer

Avinashi - Coimbatore Rd, Arasur, India · dtharunn2@gmail.com

Date of birth	2/2/2007	**Nationality**	India

AREAS OF EXPERTISE	Python, AWS, Azure, Pandas, SQL, Git, Databricks	Expert

EMPLOYMENT HISTORY

Aug 2025 - Jul 2029

Student (Currently) — Coimbatore, Tamil Nadu

Project-driven student building deployable end-to-end projects. Designed, implemented, and deployed data pipelines and applications from ingestion through serving, with emphasis on reliability, automation and reproducibility. Highlights: - Developed end-to-end data pipelines (ingest, transform, store, serve) using Python, SQL, Apache Airflow, Docker, and AWS services. - Built containerized, deployable applications and automated deployments with CI/CD pipelines to ensure reproducible releases. - Implemented data quality checks, monitoring, and logging to improve pipeline reliability and reduce failures. - Collaborated using Git, documented architecture and deployment steps, and iterated on projects based on testing and user feedback.

EDUCATION

Aug 2025 - Present

B.Tech CS, Amrita Vishwa Vidyapeetham — Coimbatore
